OYMC types as replacement for OMRONS - 3G3JV... and YASKAWAs – CIMR-J7AC... types

OMRONS branded 'JV'-types and the Yaskawa branded 'J7'-types are phasing-out, a direct replacement will be an OYMC branded 'J7'-type. The with-yellow-indicated specification is taken as 'standard' by OYMC, it is more likely that these types are on stock then other types.

Omron Description Type	Yaskawa Description Type	Oymc Description Type
3G3JV-A2001	CIMR-J7AC20P10	CIMR-J7AZ20P10
